

## Name Tags and Task Cards

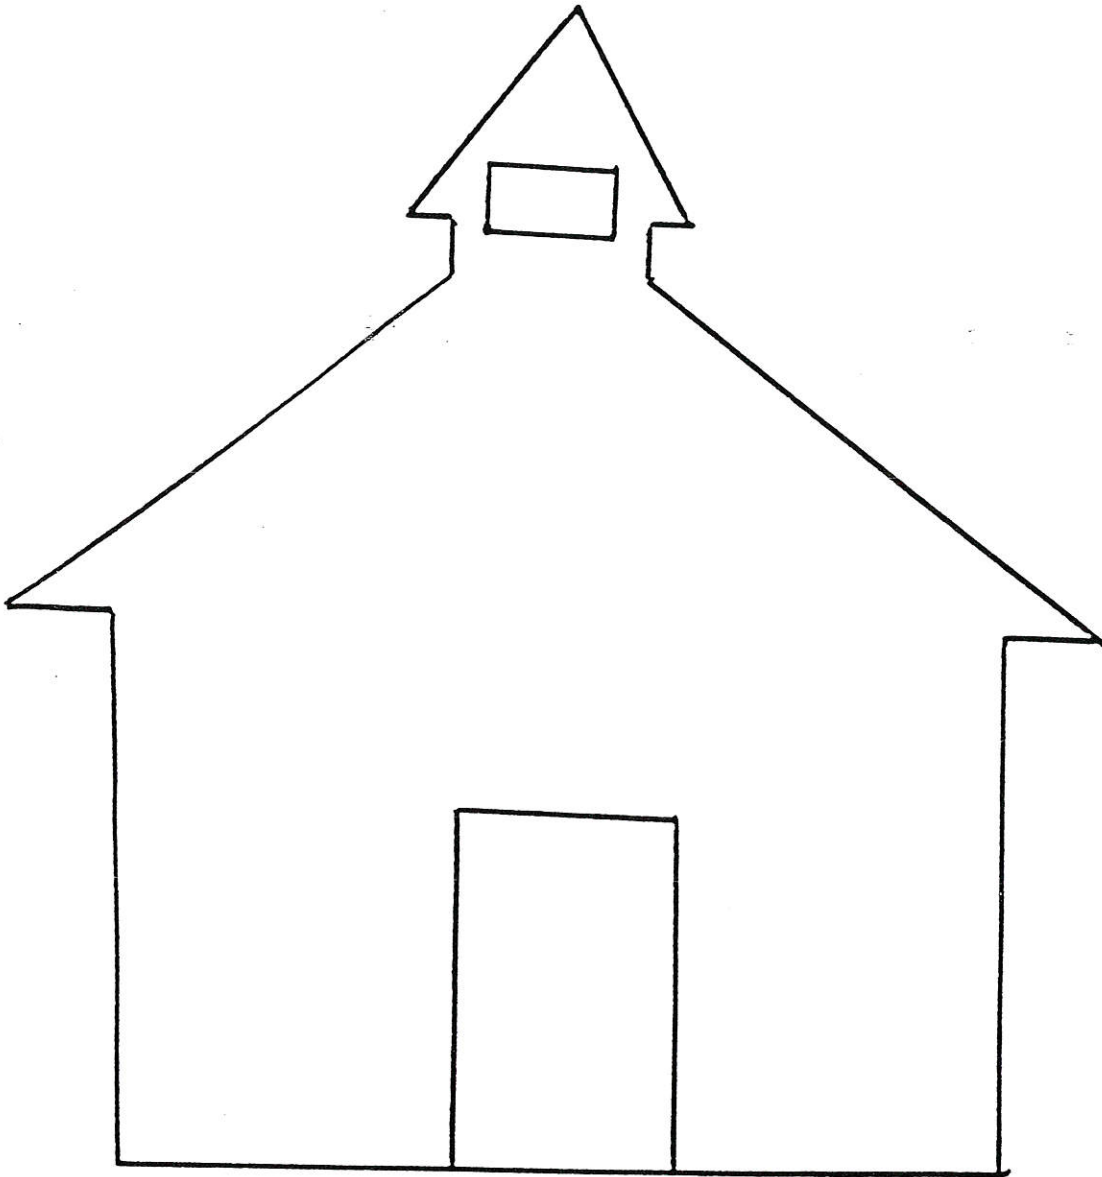

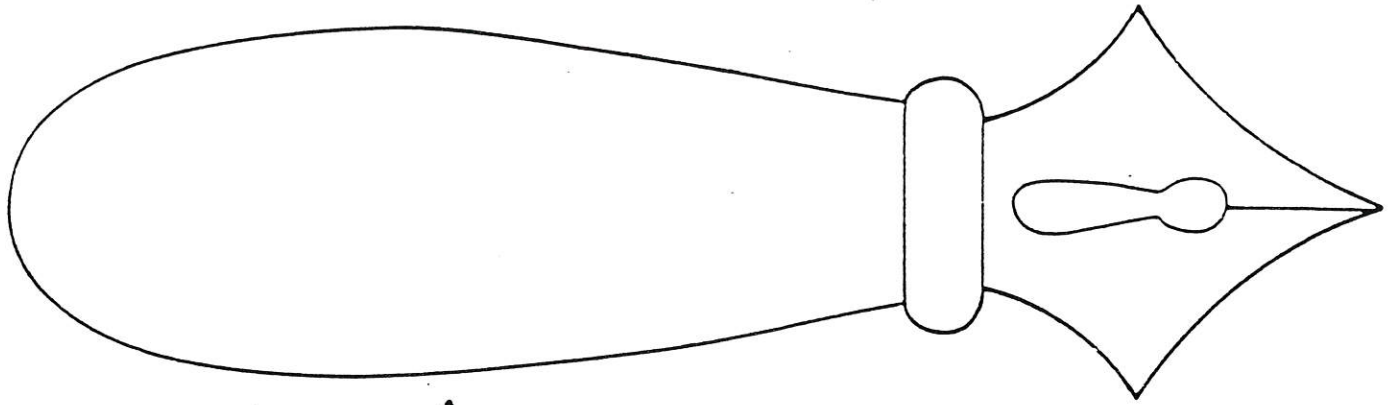

All students attending Historic School will wear name tags with both first and last names. Please print so the first name can be read across the room. There is no need to laminate these tags. Tags which hang around the neck or are safety-pinned to the student work well.

SOAR has a schoolhouse design available for the letterpress. Even the little doors open! The apple or the flower design would also be appropriate. The letterpress is a real timesaver on projects like these.

To make "slate boards," glue a rectangle of black paper onto a slightly larger brown rectangle. Use chalk to write the student's name.

Expand any of the graphics ideas in this book to fit your needs. As you develop new ideas, tasks cards, and centers, share your ideas with SOAR.
